

# iConx2

By Dynamic Business Solutions, Inc.

*iConx2* brings the power of ACT! contact management to Microsoft Dynamics GP users. *iConx2* combined with ACT! fills the information void between your sales team and your internal accounting system. ACT! is designed to manage your prospects and Microsoft Dynamics GP is designed to manage your customers. Together, your sales team can keep on top of your customers as well as their prospects, and your internal customer service team can harness all the information gathered in the sales cycle directly into Microsoft Dynamics GP .

## Product Highlights

### System Manager:

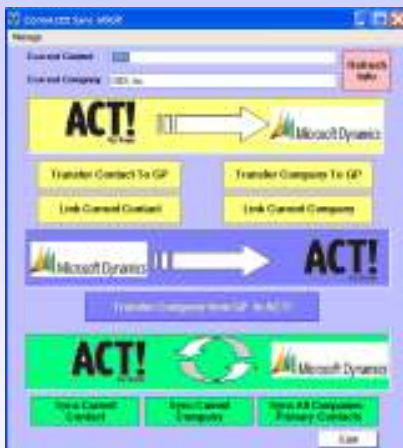

- Assign individual users rights for some or all the of transfer functions
- All transfers and changes are logged for quick reference
- Full ACT! security integration

### Transfer of Customers to ACT!

- Customers can be transferred to ACT! either individually, by customer class, by customer name, by sales rep or by territory
- The transfer process populates the Company information and contact information if available
- Groups can be 'updated' manually if desired (automatically with the *iConx2* Server)
- Identifies customers that are missing from ACT!

### Transfer of Contacts or Companies from ACT to MS Dynamics GP

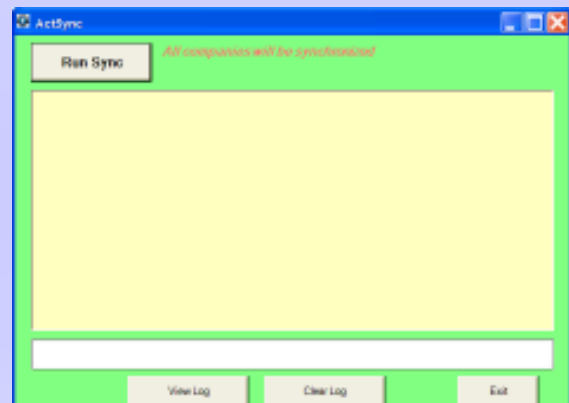

- Depending on how you are using ACT!, *iConx2* allows the transfer of either the contact information or the company information directly into Microsoft Dynamics GP.
- No Re-keying • No typos • No worries

Control menu launched from within ACT!

### Benefits of ACT! Integration with MS Dynamics GP:

- ACT! is MSSQL based which gives it great stability and scalability
- ACT! can synchronize via a VPN or via the WEB out of the box!
- ACT! has Palm and PocketPC interfaces out of the box!
- ACT! is easy to use, easy to learn, easy to manage.
- ACT!'s price makes it a good value, *iConx2* makes it a better value!

Update your MSDGP and ACT Files with the Sync feature!
